

INTERNET MARKETING SERVICES

IMS

New Media Gateway provides a wide array of internet marketing services that can handle anything your organization needs. Our services compliment our products well, but can also stand alone by themselves.

Our internet marketing services have proven themselves to generate results for our customers. We have seen tremendous increases in streamlining processes, shortening sales cycles by creating more qualified leads, and increasing revenues through both traditional and online marketing and sales efforts.

INTERACTIVE MARKETING SERVICES

You run a first class operation over there, and I am very happy to be working with you and your top-notch team!

Our Internet Marketing Services allow our customers to have the security of knowing that they will be generating a return on their investments. We can assist with anything from new and creative ways of presenting your business, to additional revenue streams that you never knew were possible, or did not have the right tools to make it happen with.

With anything from Interactive Design that can incorporate presentations with voice over animation, video production shoots, website search engine optimization - online campaign management, or even interactive 3D animation; NMG can show you how to improve your ability to market and sell your organization more cost-effectively.

Using Internet Marketing Services, our clients have experienced increased results like:

- 1 Up to 2300% ROI on monthly pay-per-click advertisement budgets
- 2 40% savings in print and warehousing brochure, and marketing collateral
- 3 Up to 65% view/response rates on marketing and sales outbound messaging
- 4 Implementation of internet marketing strategies to generate/increase revenue streams
